

We can help!

You can take advantage of this free program.

As a participant, you will be partnered with a community health worker who will support and connect you to local resources to improve your quality of life.

What is the Pathways HUB?

The Pathways HUB is a free program to help connect people to medical and social services they and their loved ones need most. Every Pathways HUB participant partners with a community health worker to empower them to make decisions regarding their health and well-being. A community health worker connects them to resources and services to manage risks one by one, allowing the participant to take charge and achieve a healthier life.

Community Health Workers

The Pathways HUB's community health workers understand that sometimes it can be hard to make the right choices about your health. They can help you find services in the community and explain how to use them. When you sign up, you will meet with a community health worker to identify the areas where you need support. Each risk is translated into a pathway to help you find food, housing, medical care, and other social services starting where you need help the most.

Partial funding provided by the Ohio Commission on Minority Health.

Dayton Regional Pathways HUB

Helping connect you to medical & social services needed for a healthy life.

A free program available to anyone in Montgomery & Clark Counties.

Is this program a good fit for me?

- Do you live in Montgomery or Clark County?
- Are you Medicaid-eligible?
- Are you experiencing barriers to healthcare?
- Do you need help with things like finding food, safe and stable housing, or reliable transportation?
- Are you willing to partner with a community health worker to improve your quality of life?

We can help you connect to community services and resources.

Your pathway to wellness.

Are you pregnant?

The Pathways HUB helps babies reach their first birthdays and have many more!

A healthy pregnancy can prevent serious problems for you and your baby. The Pathways HUB helps expecting mothers get access to the care and social services they need to have healthy births.

Do you need...

- Diapers or a crib?
- A ride to your doctor's appointment?
- Help with your other children?
- A doctor's care?
- Health insurance?

We can help!
